It's vol 5.
This time, there aren't many omake pages in Chacha, so I decided to use these 1/3 spaces to draw some 4-panel comics. About 1/3 of all the requests mentioned that, you see...

And there are a lot of requests about the profiles of Chacha and her friends, as expected. There's no helping it, so I thought I would write all I could.

First of all, it's our (probably) main character, Chacha.

Birthday... I haven't thought of it, but it's in the summer. She's a Leo and her blood type is O. At the beginning, it was supposed to be a one-shot, so I thought "Just 'Akazukin-chan' is okay." <Akazukin = Red Riding Hood>, but my boss said "Anything is fine, just name her," so I gave her the name "Chacha."
